

2835 Columbia Street
Torrance, CA 90503

To whom it may concern,

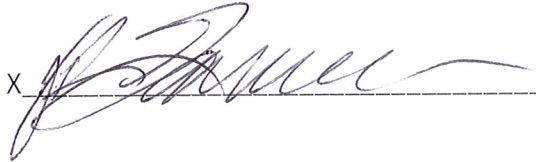

Celestron is authorizing Pittman/Ametek to sell the GM8222D395-R1 motor for the discontinued CGE Pro mount to all customers that request a replacement motor so that they may attempt to enact repairs on their telescope mount. It will be understood that there is no warranty attached to the sale through Celestron. Any warranty offered by Pittman/Ametek would be handled directly with the customer through their standard warranty processes.

Regards

Rick Garrison

Engineering Manager
